

Product name Resilience® 1000  
 INCI name Human Adipose Derived Stem Cell Conditioned Media/1,2-Hexanediol  
 Lot no. 260501  
 Identification no. K대H250421-02  
 Issued date May 26, 2026  
 Storage condition 2~8°C

Manufacturing Date May 11, 2026  
 Retest Date 12 months after manufacturing date

| Test items   | Specification  | Result                          |
|--|--|---------------------------------|
| Appearance   | Lightly pink transparent liquid  | Lightly pink transparent liquid |
| Identification(1)  | Absorbance should be observed at 595nm in measuring total protein contents | Observed at 595nm               |
| Identification(2)  | EV(Extracellular vesicles) should be observed by NTA analysis.             | High amount observed            |
| pH   | 6.5 ~ 8.5  | 7.92                            |
| Sterility test   | No microbial growth  | No growth                       |
| Mycoplasma testing   | Negative   | Negative                        |
| Adventitious Virus Testing                                       | Negative   | Negative                        |
| Purity test(1): Absence Test for Source Cells and Source Tissues | Negative   | Negative                        |
| Purity test(2): Absence Test for Antibiotics and Serum           | Negative   | Negative                        |
| Assay(1): VEGF(ng/mL)  | more than 10.0   | 13.833                          |
| Assay(2): TGF beta(ng/mL)  | more than 0.1  | 0.661                           |
| Assay(3): HGF(ng/mL)   | more than 1.0  | 7.825                           |
